

Bet Direct by FTS – Prospectus

Introduction

Bet Direct is an automated betting service which enables a user to have bets placed automatically through the users Betfair account without any input from themselves except for initial set up and inputting stakes.

The selections are uploaded to a secure webserver. A clients bot then reads this webserver and places bets through the Gruss Betting Assistant interface using Betfair at the client's desired stakes.

Initially Bet Direct will operate 3 Horse Laying Services, 3 Horse Backing Services, Pre Match Football Bets and In-Play Football bets.

The breakdown of the services is as follows

Rock Solid Lays - A laying service that lays only short price horses generally favourites. Average yearly profit since 2012 is 48.78 points per year. Football In-Play Bets – Pre advised in play advice is slowly becoming a thing of the past as is the need to sit in all day to watch a screen and end up with no profit. NOTES – The below is imperative to understand before even thinking of signing up to Bet Direct

You **MUST** have an active Gruss Betting Assistant Subscription - <http://www.gruss-software.co.uk>

This costs currently £6 per month, FTS is not responsible for any price increase for this 3rd party software application

Your Bot must be on at all times. Bets will be submitted at numerous times through the day. The client bot must be live to receive the information and place the bets. The recommendation is to use a VPS which in essence is a computer hosted elsewhere that is running 24/7. They are secure you simply login using your details and use it as you would any windows computer. We can set this up for you and the cost to run the VPS is £20 per month. As well as running Bet Direct you are of course free to then use this VPS for anything you wish.

Licenses

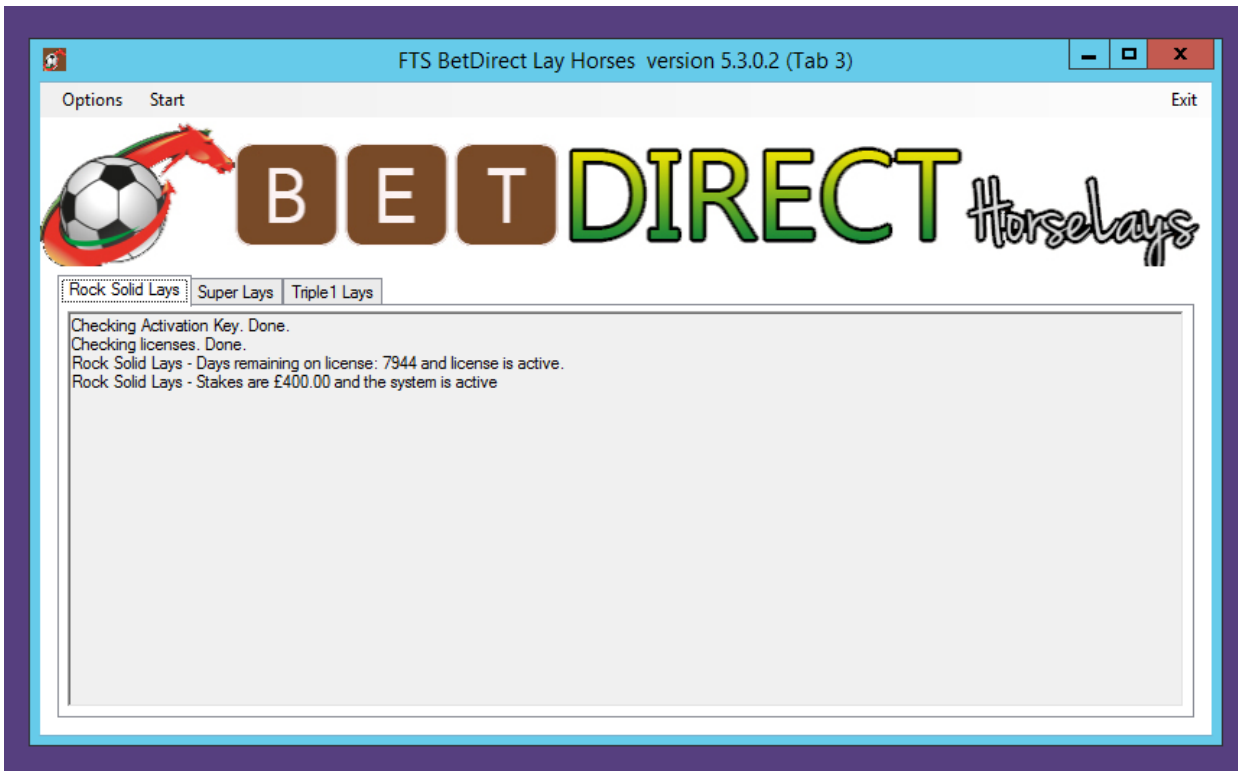

Bet Direct operates on a specific, individual license key per user. A license runs for 365 days.

There are only 30 licenses available. We may release more licenses at a later date. We need to monitor support levels and effects on the market before any further licenses will be made available.

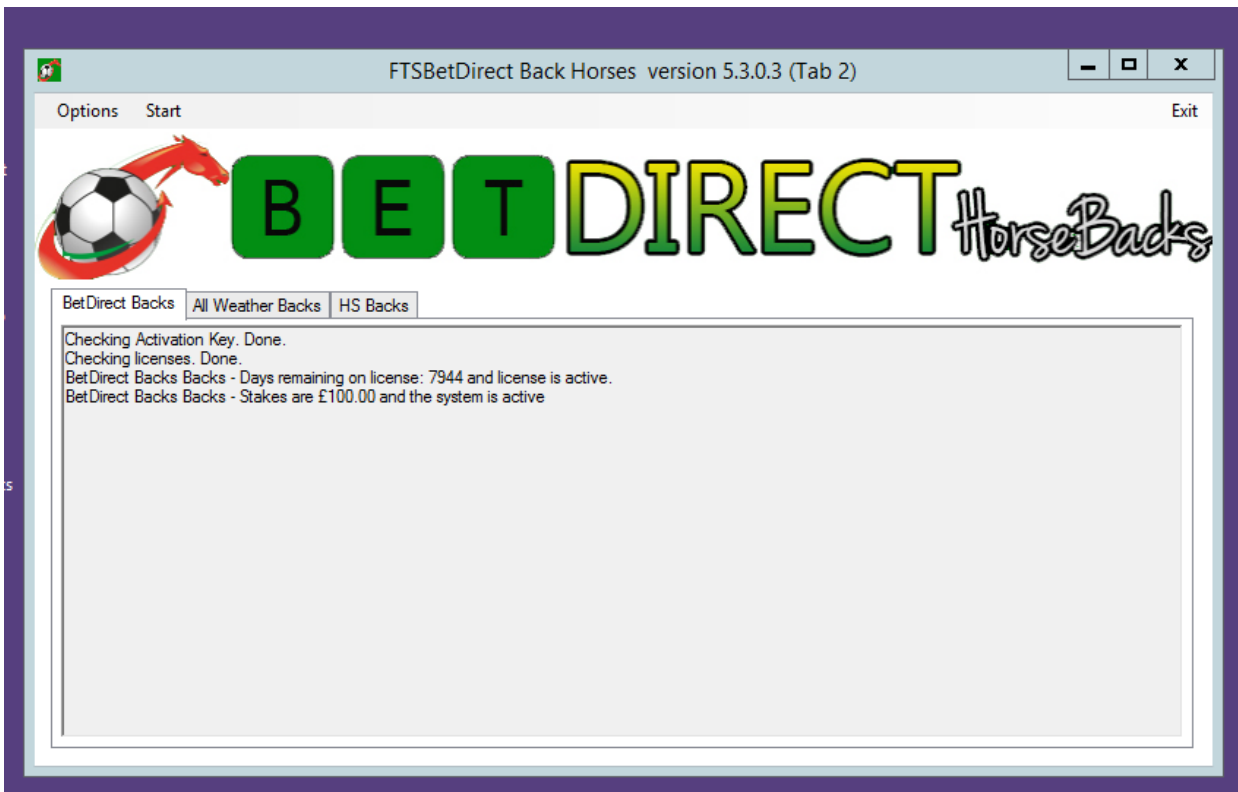

What You Actually Get

When you have paid your license fee you gain access to THREE Client bots

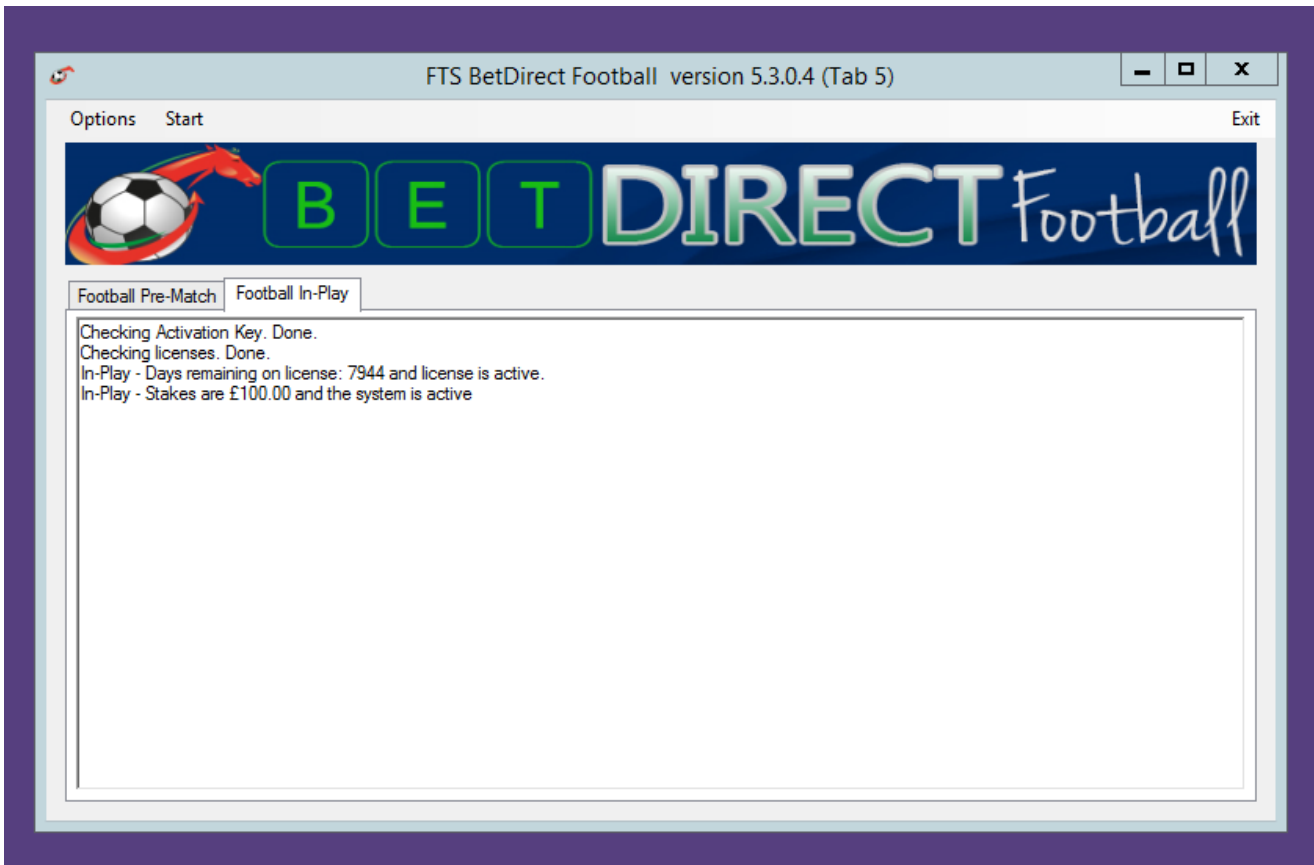

Bet Direct Horse Lays

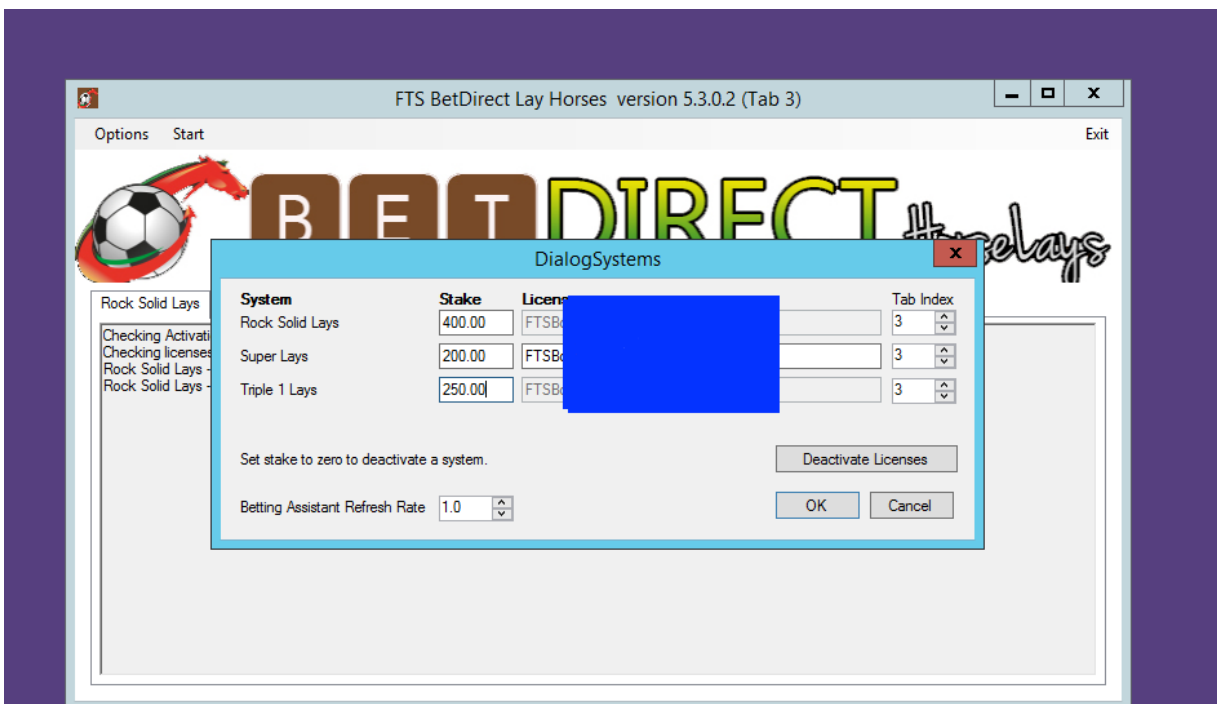

Bet Direct Horse Backs

Bet Direct Football

These client bots need to sit open on your computer/VPs and once started they run 24/7. You input your desired stakes for each system using the options tab. Your personal license goes in the license box next to system you subscribe to and you simply enter your intended stakes for each system.

Once your license and stakes are entered (You need to have Gruss software running also) you simply press start.

As bets are uploaded from FTS your bot reads them and if they meet qualifying system criteria they are placed. The grey space in the client bot will populate as racing proceeds through the day and you can check to see if bets have been placed or if there were no qualifying selections.

FTS BetDirect Football is now awaiting new bets.

That is all there is to it.

With your license you receive 365 days selections for Triple 1 Lays, Rock Solid Lays and Pre Match Football.

The licenses and services are 365 days as people always join a service and leave it after a bad month which is not ever going to lead to success. Once your bot is active you just let it run and I want 30 people who let it run for 365 days a year.

The subscription services are then purely optional and will have monthly options as I am aware people cannot lay out thousands of pounds in one go for services. The free services enable you to build a profit and then add services over time. It is a marathon not a sprint.

I stress though if taking a monthly subscription with the intention of just using one month to see how it goes is a completely pointless sexercise these services are all proven over 42 months plus, not everyone has won every month so you can just as easily pick a losing month it is no way to judge anything yet still how most punters decide their gambling.

Cost

A 365 day license to include all 3 Bet Direct Client Bots and 365 days of selections for Rock Solid Lays, Triple 1 Lays and Pre Match Football is £499.

If you wish to go ahead and join Bet Direct then please contact me via email entitled BET DIRECT to ian@ftsincome.co.uk

Once 30 spots are filled you will be placed on a waiting list. We will review the spaces available once we are happy everything is stable, clients are obtaining the prices and we can maintain support.

I re iterate

YOU MUST HAVE A GRUSS SUBSCRIPTION

YOUR COMPUTER MUST BE ON AT ALL TIMES WITH BOTS RUNNING SO I HIGHLY RECOMMEND A VPS.

I am happy to set a VPS up for you and install the software for you. The VPS cost is what I pay them which is around £20 per month for a safe, powerful VPS that does all you need it to do. You can access it form any internet connection in the world, and use it just as you would your own computer safe in the knowledge it is running 24/7

I stress I will not grant a license to people who have a history of joining services and leaving after a month. As a gambler this is a serious product over 2 years in the making and people need to grow up and realise that this game is about doing it properly not jumping around. There are no exceptions. Each year this will be a new commitment to profit. The information is the best there is and will be looked at over long periods not on people's whims.

IMPORTANT

IF you wish to proceed with a license please email me at ian@ftsincome.co.uk from 12.00 PM onwards on THURSDAY 7th APRIL (PLEASE ALSO INCLUDE IF YOU WISH ME TO SET UP A VPS AT an ADDITIONAL £20 Per Month). Emails before 7th April will not be looked at. I will operate on a first come first served basis. Once 30 licenses are granted then the remaining applicants will go on a waiting list in order.

Those granted a license I will email you from the evening of the 7th April through to 12th April so please be patient as we want to make sure everyone is set correctly.

If you wish to join any of the additional monthly subscription services we can discuss and sort after your client bot is set up and running.

There are no refunds for Bet Direct

Selections for all services posted to client bots will commence on Monday 18th April
